NEWS RELEASE

HELIX BIOPHARMA CORP. ANNOUNCES FIRST QUARTER 2016 RESULTS

(Aurora, Ontario) – Helix BioPharma Corp. (TSX, FSE: "HBP"), a biopharmaceutical company developing drug candidates for the prevention and treatment of cancer, today announced its financial results for the first quarter of fiscal 2016, ended October 31, 2015.

FINANCIAL REVIEW

The Company recorded a net loss and total comprehensive loss of $2,592,000 ($0.03 loss per common share) and $2,125,000 ($0.03 loss per common share) for the three-month periods ended October 31, 2015 and 2014, respectively.

Research and development

Research and development costs for the three-month periods ended October 31, 2015 and 2014 totalled $1,339,000 and $1,244,000, respectively.

L-DOS47 research and development expenses for the three-month periods ended October 31, 2015 and 2014 totalled $1,094,000 and $950,000, respectively. The higher L-DOS47 research and development expenses in the three-month period ended October 31, 2015 relate primarily to expenditures associated with the ongoing expansion of European Phase I/II clinical study in Poland.

Corporate research and development expenses for three-month periods ended October 31, 2015 and 2014 totalled $142,000 and $165,000, respectively with the decrease mainly related to lower travel expenses.

Trademark and patent related expenses for the three-month periods ended October 31, 2015 and 2014 totalled $73,000 and $80,000, respectively.

Operating, general and administration

Operating, general and administration expenses for the three-month periods ended October 31, 2015 and 2014 totalled $1,259,000 and $886,000, respectively. The increase mainly reflects higher investor and media relations, legal and other consulting arrangements associated mainly with ongoing efforts by the Company to raise capital.

LIQUIDITY AND CAPITAL RESOURCES

The Company's cash reserves of $5,008,000, as at October 31, 2015, is insufficient to meet anticipated cash needs for working capital and capital expenditures through the next twelve months, nor are they sufficient to see the Company's current research and development initiatives through to completion. Management therefore considers securing additional funds, expected to be through the issuance of equity securities of the Company, to be of the utmost importance.

The Company's condensed unaudited interim consolidated statement of net loss and comprehensive loss for the three-month periods ending October 31, 2015 and 2014 and the condensed unaudited interim consolidated statement of cash flows for the three-month periods ending October 31, 2015 and 2014 are summarized below:

Forward-Looking Information and Risks and Uncertainties

This news release contains forward-looking information (collectively, "forward-looking information") within the meaning of applicable Canadian securities laws. Forward-looking information includes statements and information that are not historical facts but instead include financial projections and estimates, statements regarding plans, goals, objectives, intentions and expectations with respect to the Company's future business, operations, research and development, including the Company's activities relating to DOS47, and other information in future periods.

Forward-looking information includes, without limitation, statements concerning the Company's ability to operate on a going concern being dependent mainly on obtaining additional financing and future expenditures, the insufficiency of the Company's current cash resources and the need for financing. Forward-looking information can further be identified by the use of forward-looking terminology such as "ongoing", "estimates", "expects", or the negative thereof or any other variations thereon or comparable terminology referring to future events or results, or that events or conditions "will", "may", "could", "would", or "should" occur or be achieved, or comparable terminology referring to future events or results.

Forward-looking information are statements about the future and are inherently uncertain, and are necessarily based upon a number of estimates and assumptions that are also uncertain. Although the Company believes that the expectations reflected in such forward-looking information are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements. Forward-looking information, including financial outlooks, are intended to provide information about management's current plans and expectations regarding future operations, including without limitation, future financing requirements, and may not be appropriate for other purposes. Certain material factors, estimates or assumptions have been applied in making forward-looking statements in this news release, including, but not limited to, the safety and efficacy of L-DOS47; that sufficient financing will be obtained in a timely manner to allow the Company to continue operations and implement its clinical trials in the manner and on the timelines anticipated; the timely provision of services and supplies, or other performance of contracts by third parties; future costs; the absence of any material changes in business strategy or plans; and the timely receipt of required regulatory approvals and strategic partner support.

The Company's actual results could differ materially from those anticipated in the forward-looking statements contained in this news release as a result of numerous known and unknown risks and uncertainties, including without limitation, the risk that the Company's assumptions may prove to be incorrect; the risk that additional financing may not be obtainable in a timely manner, or at all, and that clinical trials may not commence or complete within anticipated timelines or the anticipated budget or may fail; third party suppliers of necessary services or of drug product and other materials may fail to perform or be unwilling or unable to supply the Company, which could cause delay or cancellation of the Company's research and development activities; necessary regulatory approvals may not be granted or may be withdrawn; the Company may not be able to secure necessary strategic partner support; general economic conditions, intellectual property and insurance risks; changes in business strategy or plans; and other risks and uncertainties referred to elsewhere in this news release, any of which could cause actual results to vary materially from current results or the Company's anticipated future results. Certain of these risks and uncertainties, and others affecting the Company, are more fully described in Helix's Annual Information Form, in particular under the headings "Forward-looking Statements" and "Risk Factors", and other reports filed under the Company's profile on SEDAR at www.sedar.com from time to time. Forward-looking information is based on the beliefs, assumptions, opinions and expectations of Helix's management on the date of this new release, and the Company does not assume any obligation to update any forward-looking information should those beliefs, assumptions, opinions or expectations, or other circumstances change, except as required by law.
