HELIX BIOPHARMA CORP. APPOINTS DR. FRANK GARY RENSHAW TO SCIENTIFIC ADVISORY BOARD

(Richmond Hill, Ontario) – Helix BioPharma Corp. (TSX: “HBP”), (“**Helix**” or the “**Company**”), a clinical-stage biopharmaceutical company developing unique therapies in the field of immuno-oncology based on its proprietary technological platform DOS47, today announced the appointment of Dr. Frank Gary Renshaw to the Company’s Scientific Advisory Board.

Dr. Renshaw is a healthcare industry executive and Oncologist-Hematologist drug developer with several decades of oncology drug development experience. He has provided medical and scientific expertise ranging from early stage pre-clinical drug development to presiding over dozens of successful U.S. investigational new drug applications and European Medical Agency new drug submissions of which some have resulted in successful new drug applications.

Dr. Renshaw is currently the Chief Medical Officer of Zhejiang DTRM Biopharma Co. Ltd. Previous roles included Medical Oncology Director at Eisai; Global Executive Director Level II, Oncology and Hematology R&D at Celgene Corporate; Executive Director at Celsion Corporation and Global Clinical Lead; and Clinical Pharm Lead at Bayer Health Care Corporation. Dr. Renshaw participates in a number of oncology industry committees and task forces.

“We are very excited to welcome Dr. Renshaw to the Company’s Scientific Advisory Board, said Dr. Heman Chao, Helix’s Chief Executive and Science Officer. “Dr. Renshaw brings a wealth of experience in oncology drug development and medical expertise to Helix. I look forward to working with the Scientific Advisory Board in continuing the advancement of L-DOS47 in the clinic.”

Forward-Looking Statements and Risks and Uncertainties

This news release contains forward-looking statements and information (collectively, “forward-looking statements”) within the meaning of applicable Canadian securities laws. Forward-looking statements are statements and information that are not historical facts but instead include financial projections and estimates, statements regarding plans, goals, objectives, intentions and expectations with respect to the Company’s future business, operations, research and development, including the Company’s activities relating to DOS47, and other information in future periods. Forward-looking statements can further be identified by the use of forward-looking terminology such as “ongoing”, “estimates”, “expects”, or the negative thereof or any other variations thereon or comparable terminology referring to future events or results, or that events or conditions “will”, “may”, “could”, or “should” occur or be achieved, or comparable terminology referring to future events or results.

Forward-looking statements are statements about the future and are inherently uncertain, and are necessarily based upon a number of estimates and assumptions that are also uncertain. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements. Forward-looking statements, including financial outlooks, are intended to provide information about management’s current plans and expectations regarding future operations, including without limitation, future financing requirements, and may not be appropriate for other purposes. Certain material factors, estimates or assumptions have been applied in making forward-looking statements in this news release, including, but not limited to, the safety and efficacy of L-DOS47; that sufficient financing will be obtained in a timely manner to allow the Company to continue operations and implement its clinical trials in the manner and on the timelines anticipated; the timely provision of services and supplies or other performance of contracts by third parties; future costs; the absence of any material changes in business strategy or plans; and the timely receipt of required regulatory approvals and strategic partner support.

The Company’s actual results could differ materially from those anticipated in the forward-looking statements contained in this news release as a result of numerous known and unknown risks and uncertainties, including without limitation, the risk that the Company’s assumptions may prove to be incorrect; the risk that additional financing may not be obtainable in a timely manner, or at all, and that clinical trials may not commence or complete within anticipated timelines or the anticipated budget or may fail; third party suppliers of necessary services or of drug product and other materials may fail to perform or be unwilling or unable to supply the Company, which could cause delay or cancellation of the Company’s research and development activities; necessary regulatory approvals may not be granted or may be withdrawn; the Company may not be able to secure necessary strategic partner support; general economic conditions, intellectual property and insurance risks; changes in business strategy or plans; and other risks and uncertainties referred to elsewhere in this news release, any of which could cause actual results to vary materially from current results or the Company’s anticipated future results. Certain of these risks and uncertainties, and others affecting the Company, are more fully described in the Company’s annual management’s discussion and analysis for the year ended July 31, 2020 under the heading “Risks and Uncertainties” and Helix’s Annual Information Form, in particular under the headings “Forward-looking Statements” and “Risk Factors”, and other reports filed under the Company’s profile on SEDAR at www.sedar.com from time to time. Forward-looking statements and information are based on the beliefs, assumptions, opinions and expectations of Helix’s management on the date of this new release, and the Company does not assume any obligation to update any forward-looking statement or information should those beliefs, assumptions, opinions or expectations, or other circumstances change, except as required by law.
